

Name: _____

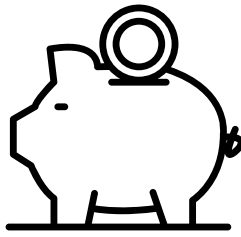

Word Bank Count:

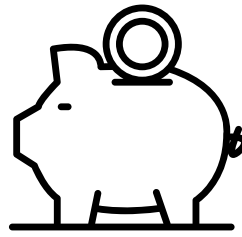

week 1

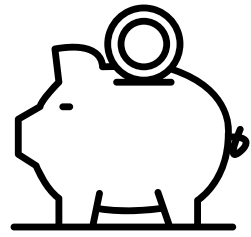

week 2

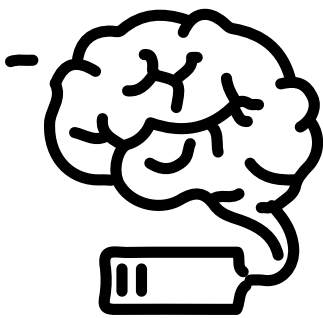

week 3

week 4

week 5

Memorization is an important skill we practice to build our memory muscles. The more we practice, the more our brain remembers! It also gets faster and faster at remembering new things, new patterns and many other fun and important information to grow our brain battery!

Think about how your brain works hard to remember things. Keep track of the strategies you use every week to help your brain remember new content.
